We reviewed with the students the purpose of the meeting and the importance of their input. We also described the National School Lunch Program rules and wellness policy.

Students enjoy our salads, homemade pizza bagels, boneless chicken wings, waffles, taco; mini pancakes w/fresh fruit, soup, personal pizza and pizzeria pizza.

The students had no complaints at this meeting.

They would like to have hot chocolate and smoothies. We did a smoothie day last year.

The cafeteria staff committed to continually seeking the students valued input. The cafeteria will also check production records to ensure the third period has the same expansive variety. We told students to keep in contact with us and thanked them for their time.
