We reviewed with the students the purpose of the meeting and the importance of their input. We also described the National School Lunch Program rules and wellness policy.

We asked the students what their favorite foods are that we serve. They responded they like the Cavo bowl, the chicken chipotle wraps, soups, and waffles. The most popular version of the Big Mac, lo Mein with veggies.

Student would like us to try bread bowls with soup in them. Bagel Chips w/Salads

The only thing negative thing was that we do not make enough spicy barbecue chicken wrap. Some students don't like pasta and some students love pasta.

We told them they could ask to taste any food item they never had before.

We emphasized if they ever have an idea or something that they would like us to make please let us know.
