Dear Families,

I hope you are all enjoying a well-deserved summer break. I want to share a special opportunity for your child to stay connected to our school community through a fun and meaningful **optional summer activity**.

This year, our district-wide theme will be **“The Hive Effect”**. Much like the ripple effect, “The Hive Effect” is all about how small and positive actions can spread and create powerful, lasting impacts. Just as bees work together in a hive to support one another and build something strong, each student plays an important role in making our school a better place.

To help bring this idea to life, students are invited to take part in the **Hive Effect Summer Challenge**. The idea is simple: your child will choose and complete four (or more) small acts of kindness over the summer and document them through writing, drawing, or photos. At the start of the school year, we’ll celebrate everyone’s contributions by creating a “Hive Wall” — a visual display where each student’s hexagon will become part of a larger honey comb!

Please see the attached instructions and hexagon template. Participation is optional. We hope this experience inspires reflection, kindness, and a deeper understanding of the power we each hold to uplift one another — one small act at a time.

Thank you for your continued partnership. I wish you and your family a safe, joyful, and restorative summer!

Best,

Tracey Marinelli
